

Jamie's Farm Skipton

A six-week intensive intervention of **Farming, Family** and **Therapy** to support your vulnerable pupils

Jamie's Farm is excited to launch our next farm near Skipton, Yorkshire. Set in sweeping countryside on the south of the Yorkshire Dales, the extensive farm will host young people from across the region and beyond.

We will initially be offering a programme of day visits, with visiting young people attending the farm once a week over a six week half term. This will provide young people with an extended Jamie's Farm intervention, focusing on their engagement with school, attendance and mental wellbeing. This programme would be ideal either as a stand-alone intervention, or as a follow-up programme to many of the pupils who have already attended our residential at other Jamie's Farms.

What we're offering

- Weekly visits to the farm, promoting long term engagement with school
- Extensive working farm with hundreds of sheep, cows and chickens
- Set in beautiful rolling countryside, providing fresh air, views and peace
- Visiting groups will support with seasonal work such as farming, cooking, woodwork and gardening
- A warm, family environment, providing a big welcome, individual connection and effective nurture from our skilled and experienced staff team
- Programme underpinned by therapeutic principles of empathy, unconditional positive regard and authentic relationships
- Ideal for groups of 9 young people, supported by 2 school staff, who are currently struggling to have their needs met in school

Key outcomes

- Improved engagement and relationships with teachers and other pupils
- Improved attendance
- Improved mental wellbeing
